Suite 11 Manor Mews
Bridge Street
St Ives
Cambridgeshire
PE27 5UW

Our ref: WEE/WR0006ZT/ATF
WEE/GX0002ZS/ATF

Date: 01 March 2023

Dear Russell Hirst

**The Waste Electrical and Electronic Equipment Regulations 2013 (as amended)
Notification of grant of approval of an authorised treatment facility with the use of an
agreed protocol**

We have considered your application for approval as an authorised treatment facility (AATF) under the Waste Electrical and Electronic Equipment Regulations 2013 (as amended) with the use of an agreed protocol and hereby grant approval to **Wiser Recycling Limited** to operate as an AATF at the following sites only:

Site name and address	Approval number
Wiser Recycling Ltd (Thetford) 52-54 Brunel Way Thetford Norfolk IP24 1HP	WEE/GX0002ZS/ATF
Wiser Recycling Ltd (Milnsbridge) Colneside Business Park George Street Milnsbridge Huddersfield HD3 4JD	WEE/WR0006ZT/ATF

Your approval is subject to the conditions of approval specified in Part 2 of Schedule 11 to the Regulations at the approved sites listed above. A copy of these conditions is attached.

Your approval is valid from 01 January 2023 and ends on 31 December 2023, unless it is otherwise suspended or cancelled. The approval applies only to the named operator for the specified approved sites. You must notify us immediately, in writing, of any changes to the details submitted with your application.

If you wish to apply any site specific protocols to another site, you must submit an additional protocol application, providing evidence of sampling, which will be assessed by the Environment Agency to determine if the protocol can be applied to the additional site.

The acknowledgment of the protocol is subject to the conditions listed in Annex 1.

This approval applies only to the legal entity named in this letter. If this changes then your approval will be deemed to be cancelled and you must make a new application for approval. If you cease to be an authorised treatment facility your approval will also be deemed to be cancelled.

The approval allows you to issue evidence notes for waste electrical and electronic equipment (WEEE) which you received at this site and which is subsequently re-used, treated, recovered or recycled.

If you issue evidence notes for greater than 400 tonnes of WEEE you must inform us immediately. You will be liable to pay the balance of the charge, namely £2,900, within 28 days of issuing the evidence note which exceeded the 400 tonnes of WEEE. Failure to pay the upgrade fee within the 28 days may result in your approval being suspended.

This approval does not replace any other environmental authorisation(s) that you may have for the sites. You must continue to comply with these and other relevant legislation. This includes complying with the legal requirements for persistent organic pollutants and hazardous waste. More information on this can be found by contacting our Chemicals Compliance team at POPsandWEEE@environment-agency.gov.uk.

AATFs wishing to be approved for the next compliance period (01 January – 31 December 2024) and to have their approval run continuously, should apply to the Environment Agency using the relevant application forms before 30 September 2023.

If you have any specific queries about your approval or general queries regarding the WEEE Regulations please contact 03708 506 506 and ask to speak to a member of the Producer Responsibility Regulatory Services (PRRS) team.

Yours sincerely

Sam Hall
Senior Technical Officer
Producer Responsibility Regulatory Services
Environment Agency

Annex 1 -

A. Site Specific Protocol

The table below shows details of the agreed protocol for site: Wisser Recycling Limited (Milnsbridge), Colneside Business Park, George Street, Milnsbridge, Huddersfield, HD3 4JD and Wisser Recycling Limited (Thetford), 52-54 Brunel Way, Thetford, Norfolk, IP24 1HP. 	11	12.27		30 June 2023
	12	0.98		30 June 2023
	13	0.02		30 June 2023
				30 June 2023

Sampling

You should submit a protocol proposal 6 months prior to the expiry of this protocol if you wish to continue using an SSP.

If there are changes to the type/source of WEEE you receive, and it is likely to affect the percentages/weights agreed in your SSP, then please contact us. You may need to conduct more sampling to ensure your SSP figures remain valid.

Your use of this protocol will be inspected during site audits, to ensure that it is being applied appropriately and the data is being recorded is auditable and accurate.

Please note, the Environment Agency may ask you to increase the level of sampling if there are concerns with the protocol or any data discrepancies. The Environment Agency reserve the right to withdraw our acknowledgement of the protocol if information indicates it is providing inaccurate reporting of WEEE.
